Please describe the type of work & period of performance being proposed:

Amount of funding requested _____

Society of American Military Engineers (SAME) Piscataqua Post Criteria for Evaluating Funding Requests:

The Posts Board of Directors will review proposed internship needs and based on the available funding each fiscal year, will fund those proposals that provide the best value and greatest range of impact in support of developing student's knowledge skills and abilities associated with the engineering and physical sciences.

Proposal descriptions should include:

1. What tasks are proposed for proposed of this intern and will this person be assigned a mentor (supporting documentation can be attached)?
2. Approximately how many hours will be the intern be employed over the proposed period of performance?
3. What specifically are funds being used for_?
4. Are students who benefit from this funding be willing to brief SAME on their experience at a future monthly meeting?

Note: Typically funding requests should be limited to \$1000. If you have a need for more than that amount then please submit additional funding requests on separate Summer Intern Grant Form
